SHE WAS BOUND TO DIE.

A Colored Girl's Insane Efforts to
Take her Life.

LEAPS HEADFIRST FROM A WINDOW

After a Razor is Taken from her by
Companions—An Exciting Time at
Fannie Preston's House Yesterday
Afternoon, Caused by a Girl's Wind-
up of a Drunken Spree.

Late yesterday afternoon a good deal
of excitement was caused on Nineteenth
and Eoff streets by the insane persist-
ence of a colored girl who wanted to
commit suicide. She was Mamie But-
ler, an inmate of the house.

She had been drinking heavily for
several days past, and was just getting
over a spree, and it is supposed the de-
pression due to this cause, with some
real or fancied trouble with some of her
associates, caused her to attempt to
take her life. She first secured a razor
somewhere, and was about to cut her
throat with it, when she was observed
by the other women about the place
and disarmed. She did not surrender
the blade without a struggle, and in the
course of it she was cut in the arm.
The wound was not serious, but it bled
so profusely as to seem alarming.

After the razor was taken from her,
she left the room where the others were,
and went upstairs, as the rest thought,
to fix up the cut on her arm. In the
meantime a messenger had been sent
for a policeman, and Officer Buch was
just approaching the house in response
to the summons, when the desperate
girl threw herself headlong from a sec-
ond-story window to the ground below,
a distance of perhaps fifteen feet, as
the house sits on a foundation several
feet high.

She fell heavily and lay still, evident-
ly badly hurt, but not speechless.
Officer Buch picked her up and carried
her upstairs. Just as he laid her on
the bed she fainted, and was resusci-
tated with difficulty. It was impossible
to tell last night just how serious her
injuries were, but she will recover. No
bones are known to have been broken
by her fall. She still declared last
night that she would kill herself.

WADDELL WILL RESIGN

The Superintendency of the Hobbs Glass
Factory Soon.

It will come in the nature of a sur-
prise to most people to learn that Mr.
H. E. Waddell, who for several years
has been the superintendent of the
Hobbs glass factory, or as it is now
known, factory H of the United States
Glass Company, will in a few days re-
sign his position with that company
and will then become associated with
the Elson Glass Company, of Martin's
Ferry, in a similar capacity. It is not
known who will succeed Mr. Waddell
at factory H.

A Straw Pile Ablaze.

Shortly before six o'clock last evening
a blaze burst out in the straw pile ad-
joining Schmalbach's stable, at the
Hobbs glass works. The fire has evi-
dently smoldered since Monday night.
While one man went to telephone to
the eighth ward engine, another rang
in a general alarm, and the entire de-
partment turned out. As soon as Chief
Healy reached the scene, however, he
rang a recall, and let the eighth ward
boys put out the flames.

Will be Here To-day.

General Manager H. E. Waddell, of
the United States Glass Company's
factory A, which sustained such a big
loss by fire Monday night, yesterday
returned from Pittsburgh, but the offi-
cials of the company did not return
with him. They are expected here to-
day, when it will be determined
whether the burned buildings will be
rebuilt.

Heavy Travel to Europe.

Contrary to the general expectation,
European travel promises to be unusu-
ally good from this vicinity during the
summer months. Already a number
have started across the pond and many
more have decided to follow. Among
those already booked by Mr. John
Bailey, of the Union ticket office, for
passage in the near future, are Thomas
R. Riley and wife, of the Island; W. H.
Fisher and wife, of Martin's Ferry, and
his nephew, Alfred Fisher, of New Cas-
tle, Pa.; Patrick and James McDon-
ough, of the South Side, all by the
steamer Campania, which sails on July 1.
On the same day Albert E. Harris,
of the Island, and Fred Lewis will de-
part on the Alaska, of the Guion line.
Charles Bridges, of Yorkville, O., sailed
yesterday on the steamer British Prin-
cess, of the American line, for Cardiff,
Wales. A number of others will leave
in the next few weeks.

Glasscock with Pittsburgh.

Jack Glasscock, the famous base ball
player, whose home is in Wheeling, has
long wanted to play on a team nearer
his home than New York or St. Louis,
and his wish was to play on the Pitts-
burgh team, now under the guidance of
his personal friend, Al Buckenberger,
who once managed the Wheeling Tri-
State league team. The Pittsburgh and
St. Louis magnates have arranged a
clapper by which Glasscock is to go to
Pittsburgh, and Shugart will be trans-
ferred to the Mount City. Glasscock
will play his first game with the Pirates
on Friday, and some of his local admir-
ers will be there to cheer him on.

Ed Clator Will Row.

On Tuesday at Chicago Ed Clator,
the well known Wheeling oarsman,
entered into an agreement to row Cor-
bett, a top-notch among the western
scullers, three miles on a course at St.
Joseph, Mo., July 3, for \$500 a side.
Clator recently rowed against Corbett
at Chicago and was beaten, but his
friends are confident he will this time
retrieve himself. His Wheeling friends
wish him success.

U. S. CONSUL TO DEMARARA.

Another Wheeling Man Secures a Good,
Jolly Plume from Cleveland.

Last evening Mr. L. S. Delaplaine, jr.,
of this city, received a telegram from
Hon. Josiah Quincy, assistant secretary
of state, offering him the appointment
as United States consul to Demarara,
British Guiana, South America. Mr.
Quincy said in his telegram that the
President had been unable to find a
suitable appointment in France for Mr.
Delaplaine but much French is spoken
at Demarara, which is a fine town in a
good climate, and the salary of the posi-
tion is \$3,000 a year.

After considering the matter and con-
sulting his friends, Mr. Delaplaine an-
swered indicating his willingness to ac-
cept the appointment, and no doubt it
will be made in a few days.

Congressman W. I. Wilson was
largely instrumental in securing Cap-
tain Delaplaine's appointment, though he
had the united support of the West
Virginia delegation, and has all along
had the most positive assurances that
he should receive a good position. He
was the recipient last night of a regular
shower of congratulations.

Demarara, in British Guiana, is one of
the most important sugar and coffee
districts in South America. George-
town is the capital of the colony and is
at the mouth of the Demarara river, on
the Atlantic coast. The climate is par-
ticularly suitable for pulmonary com-
plaints, the average temperature the
year round being about 85 degrees.
The government of British Guiana is
vested in a governor appointed by the
British crown.

A WELL-KNOWN MAN ROBBED.

Suspicious Circumstances Lead to the
Arrest of Four Women.

At an early hour yesterday morning
a prominent man was robbed of about
\$50, and several valuable coins carried
as pocket pieces, and worth much more
than that sum. He was in Georgia
Frank's house, on Eoff street, at the
time. He made efforts to recover the
money yesterday forenoon, and failing,
complained to the police about noon.
Miss Frank, Ida Brister and Ethel Gor-
don, inmates of her house, and Jennie
Vincent, a landlady from Allegheny
City, visiting at the house, were all ar-
rested and the house searched, but
without result. The warrants were
issued by Squire Gillespie on the
man's complaint. After being in jail
a short time, all but the Vincent woman
were released on bail, Mr. Embler
signing the bonds.

It was said that the Allegheny woman
and the loser were in a room
alone, and she came out and said she
had \$5 of his money and that he must
have \$300 or \$400 in his purse. She
then left the house with another man.
All the people in the house said no-
body had been in the room after Mrs.
Vincent left. The money was recover-
ed.

From To-day On

We offer Ladies' Low Shoes of all kinds
at greatly reduced price. L. V. BROWN.

The explosion of a bomb is not
more sudden or unlooked for
than the attack of some malig-
nant disease, which would not
occur were the blood in perfect
order. To im-
pure blood is due a great variety
of the most fatal mal-
adies.

Life a burden. Purify your blood, and you
have it.
All the year round, you may rely upon
Dr. Pierce's Golden Medical Discovery to
purify the blood and invigorate the system.
It's not the least surprising that it is said
to be good for the blood in March, April and
May. The "Discovery" works equally well
at all times, and in all cases of blood-taint,
or humors, no matter what their name or
nature.

It's the cheapest blood-purifier, sold
through druggists, because you only pay for
the good you get.
Your money is returned if it doesn't ben-
efit or cure you.
